**FOR IMMEDIATE RELEASE:**

**SMC Ltd. Announces Expansion Of Medical Silicone Injection Molding**

**Somerset, Wisconsin** – SMC Ltd., a medical device contract manufacturer with locations in California, Wisconsin, Massachusetts, Ohio, and India, announces the expansion of silicone injection molding footprint in Somerset, WI.

The additional square footage brings the dedicated space to over 7,000 square feet in Wisconsin. “We’ve seen a lot of growth in medical devices that utilize silicone. By tripling our square footage in silicone, we can offer customers expanded services as they relate to medical silicone. In addition to adding presses, we are adding additional work cells and automation,” said Rohit Tandon, SMC Ltd. Vice President Operations.

With a proprietary in-house silicone mold manufacturing process, SMC can offer complex contoured geometries molded in combination with other materials. As a recognized leader in output-based validation methods, digital quality system applications, and other cutting edge technologies, SMC provides customers the competitive advantage in their silicone based medical devices.

**About SMC Ltd.**

SMC Ltd. is a global contract manufacturer offering complete design, molding services, and finished devices for the medical and pharmaceutical industries. With locations in Wisconsin, Ohio, Massachusetts, California, and India, SMC’s facilities provide over 500,000 square feet dedicated to high and low volume medical manufacturing. The Company’s medical operations offer ISO 13485, quality systems, white room, class 7 and 8 clean rooms with services including; design, engineering, thermoplastic molding (including 2-shot), LIM (liquid injection molding), project management, secondary operations, validation, micro molding, packaging, assembly, and sterilization of finished devices.
